

Factory Installed Fuse Clip (Jumper) \*

Double fuse option. \*

\* Note: Removal of the fuse clip allows the user the option of installing a second fuse for use in applications requiring double fusing.

This cutout is good for both front and back mounting applications. However, with back mount applications, the panel thickness is recommended to not exceed 1.5mm.

Note 1: Recommended diameter for thru-hole (screw/nut combination) hardware mounting method. Other methods will require holes with different dimensions and parameters.
