Counterfeit Parts Policy Statement

Interpower Corporation® understands there is a worldwide problem concerning counterfeit components entering the supply chain. We are committed to sourcing components and materials from companies that share our values.

Interpower purchases products only from the following sources:

- Component OEM direct
- Component OEM authorized distributor
- Component OEM authorized agent/representative

These products are verified on receipt and secure in warehouses.

Where components are obsolete/EOL or hard to find, Interpower Corporation will purchase only from known and reputable sources. In an effort to mitigate our exposure to counterfeit components, our Purchasing Department will procure products through only approved Interpower suppliers.

Our suppliers are continually monitored as outlined in our Purchasing Procedure. This includes, but is not limited to, regularly monitoring quality, performance, and fulfillment service, and as well as stock supply/demand.

In the event that Interpower Corporation discovers counterfeit products, those products will be quarantined, and an investigation will be undertaken to discover the source. Full details of the infringement will be reported to Stopfakes.gov.

If you have questions, please email janderson@interpower.com.
