

Rocker Switch Wiring Instruction: 82710060

Notes:

- 1) Switches are bi-directional devices, therefore Line and Neutral placement are not critical, as long as they correspond on both ends. This instruction is simply a reference tool and recommendation.
- 2) Connections to terminals to be made with 6.3mm female Quick Disconnect terminals.
- 3) Wire size and type to be determined by user and should be of sufficient size to cover ampacity needs of application, per applicable codes and standards.
